

**The Ethical Code of Conduct, established by the OEO Board, is a standard of ethical communication conduct within our organization adopted November 12, 2008.**

**The Ethical Code of Conduct supports the following:**

- **Appropriate communication by the membership: to include respect for each other as well as our vendor and all members of its staff.**
- **The intent of the list serve is to share information regarding efficient use of the system and daily operations. Members agree to ethical business communication when submitting posts.**
- **The Technical Liaison Committee has been established to facilitate communication between the vendor and the equipment owners on technical matters.**
- **OnviSource pledges to work with members and the Technical Committee to solve service issues as quickly as possible**
- **It is the expectation of the Board that members will comply with the Code of Conduct and policies established in support thereof. The Board has responsibility to enforce the code of conduct.**
